Explainer notes for the significant variations in the Financial Statements for the year ended 30 June 2022:

Issue-1: Significant Increase in Revenue

It is reported that our total sales revenue has increased by 19.55% during the reporting period compared to last year due to significantly increased yarn price for huge increase in the demand of cotton-based products globally. Moreover, during this period our combed yarn sales has been increased significantly by around 38.78% besides other fancy yarns compare to the last year that has contributed a lot to significantly increase our sales revenue.

Issue-2: Significant Increase in EPS

EPS has been increased due to increase in Sales Revenue and there was no significant additional fixed expenditure against the incremental revenue except raw material cost. It is also reported that the company has purchased raw materials in a reasonable and competitive rate which has contributed a lot to achieve our extra margin. As such there is a positive impact of EPS enhancement. Also noted that during the reporting year, MSMPLC management has decided to make a sum of provision for bad and doubtful debts due to the non-realization of long pending outstanding from the external customer as per IFRS 9. There was no other significant Extraordinary Transactions during this year.

Issue-3: Increase in Operating Cash flows

MSMPLC sales proceeds collection has been increased significantly over the reporting period against both site and deferred LC compared to the last year. For this reason, receivables are decreased significantly. It is also observed that the inventory of raw materials and finished goods has increased during the reporting period significantly to ensure an uninterrupted supply of raw materials to production as well as to get price benefit since raw materials demand and prices are also increasing trend. Although inventory has been increased but collection from customers has been improved significantly, resultantly MSMPLC Net Operating Cash Flow per Share has increased compared to that of the previous year.

Issue-4: Net Asset Value per Share

Net Asset Value per share has been increased considerably due to excellent operating performance for the year under review as reflected in the EPS as well.

This is for your information & record.

Sincerely yours,

M.A. Jabbar
Managing Director
